Conservative Dentistry Department

Endodontics Division

**List of supplies and instruments for
Endodontics 2
(CDD322)**

Fall 2023

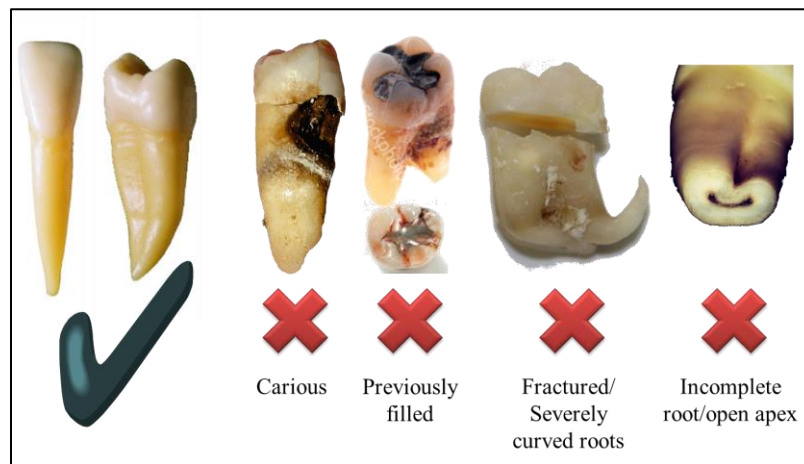

Requirements:

Instrumentation (Step-back) & Obturation for:

- 2 anterior teeth
- 2 Premolars
- 2 Molars

Which teeth should you collect?

- For **Endodontics 2**, you need to collect:
 - a) Maxillary and Mandibular Anterior teeth.
 - b) Maxillary and Mandibular Premolars.
 - c) Maxillary and Mandibular Molars.
- **Avoid teeth that have:**
 1. Severely curved roots
 2. A broken root tip
 3. Immature apices
 4. Fused roots
 5. Calcified or extremely narrow canals
 6. Extensively recessed pulp chambers

How to collect extracted teeth safely?

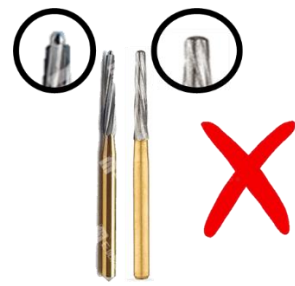

- Since extracted teeth are potential sources of infection, you need to handle them carefully. Follow these guidelines when handling extracted teeth:
 1. Collect them in a jar with 10% Formalin.
 2. Discard the jar with the old formalin.
 3. Put the collected teeth in a container with 1.25% Sodium Hypochlorite (diluted Clorox solution) for 1 hr.
 4. Clean the teeth of any adherent material by scrubbing with detergent and water or in an ultrasonic unit while using gloves.
 5. Finally put them in a clean container with clean 10% Formalin till use.

List of Supplies for Infection Control measures

 Nitrile Latex Vinyl Non-Surgical Gloves	 Over Gloves	 Mask & eye goggles	 Grey Scrub & White lab coat
 Wrapping film	 Disposable Towels	 Disposable Tray	
 Disinfectant		 Hand Soap	

List of supplies & instruments for access cavity preparation

 Sound extracted permanent teeth without fillings and without caries (anterior, premolars, and Molars)		
 Blue Wax	 Wax Knife	 Torch
 Small sterilization pouches	 Thin permanent marker (1 mm) & pencil	 Plastic tray with high sides
 Cotton pliers  Sharp Explorer / Endodontic explorer		 Four holes high speed hand piece

 Round carbide burs or diamond stones sizes #1, #2, #4, #6	 Tapered carbide fissure bur	 Bur holder
 Good Design  Bad Design Safe-ended tapered diamond stones (different sizes)	 Good Design  Bad Design Endo-Z	

List of supplies & instruments for Instrumentation

K-Files: (25mm) 		
 Box size #8 Box size #10	 Box sizes #15 - #40	 Box sizes #45 - #80
H-Files: (25 mm) 		
 Box sizes #15 - #40	 Box sizes #45 - #80	
 Endobloc or Endodontic ruler	 70% Ethyl Alcohol and Gauze Swabs	

Endodontic File holder

Irrigation

Luer lock syringe

**Side vented irrigation
needle tips**

**5.25% Sodium
Hypochlorite**

Plastic Cups

EDTA paste or gel

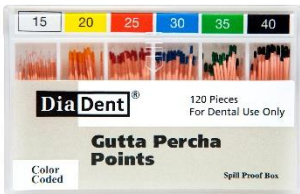

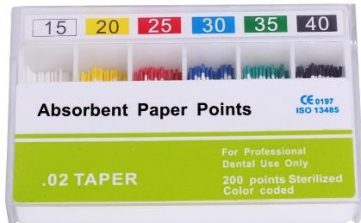

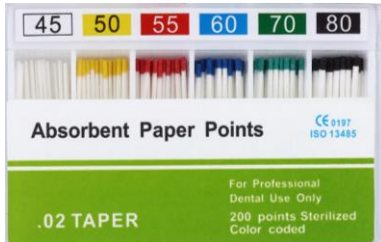

17% EDTA Solution

2% Chlorhexidine

List of supplies & instruments for Obturation

<u>Standardized gutta-percha points</u>			
			
Box sizes #15 - #40		Box sizes #45 - #80	
<u>Absorbent Paper points</u>			
			
Box sizes #15 - #40		Box sizes #45 - #80	
Eugenol based Sealer (any brand) but take care of the expiry date			
	Cement spatula		
		Sharp scissors	
Paper pads			
			
Finger spreaders		Hand plugger	

Each student must bring his/her set of instruments every section
“BORROWING FROM YOUR COLLEAGUES IS NOT ALLOWED”.
